

Open Source Disclaimer for NSI-MI Technologies Products

IMPORTANT READ CAREFULLY

Several NSI-MI Technologies products include several open source software tools. This open source software is governed by the terms and conditions of the applicable open source license, and you are bound by the terms and conditions of the applicable open source license in connection with your use and distribution of the open source software in this product.

The open source software, the applicable open source licenses and other open source notices are identified below. You agree to comply with all such licenses and other notices. If you do not agree to such terms, you may not install, download, or otherwise use the open source software other than as a component of the NSI-MI Technologies product.

The Open Source Initiative (www.opensource.org) is one of the organizations managing open source software. General descriptions of Open Source license types can be found at (www.opensource.org/licenses).

If you have any questions about the open source software contained in your product, please email support@nsi-mi.com. In the subject line of your email, please reference: "Open Source Software".
