

## Open Source Disclaimer for NSI-MI Technologies Products

### IMPORTANT READ CAREFULLY

Several NSI-MI Technologies products include several open source software tools. This open source software is governed by the terms and conditions of the applicable open source license, and you are bound by the terms and conditions of the applicable open source license in connection with your use and distribution of the open source software in this product.

The open source software, the applicable open source licenses and other open source notices are identified below. You agree to comply with all such licenses and other notices. If you do not agree to such terms, you may not install, download, or otherwise use the open source software other than as a component of the NSI-MI Technologies product.

The Open Source Initiative ([www.opensource.org](http://www.opensource.org)) is one of the organizations managing open source software. General descriptions of Open Source license types can be found at ([www.opensource.org/licenses](http://www.opensource.org/licenses)).

If you have any questions about the open source software contained in your product, please email [support@nsi-mi.com](mailto:support@nsi-mi.com). In the subject line of your email, please reference: "Open Source Software".

### Open Source Licenses and Copyright Notices

The following table lists the open source tools employed in NSI-MI Technologies products, the web site of the creator of the tool and the open source license type for each tool. All creator web sites contain the explicit license type for their product.

Open Source Software Listing		
Tool	web site	License
autoconf	<a href="http://www.gnu.org">www.gnu.org</a>	GNU GPL, Version 2 GNU GPL, Version 3
arduino	<a href="http://www.arduino.org">www.arduino.org</a>	GNU GPL, Version 2
