

PRIVACY POLICY

PLEASE READ THIS PRIVACY POLICY CAREFULLY BEFORE USING THIS WEBSITE OR SUBMITTING ANY PERSONAL INFORMATION. BY USING THIS WEBSITE YOU ARE AGREEING TO THESE PRIVACY TERMS. IF YOU DO NOT AGREE, DO NOT USE THIS WEBSITE.

Commitment to Privacy

NSI-MI Technologies respects the privacy of every individual who uses its web site (www.nsi-mi.com) and will only process and use the data obtained through the Site for the Company's own business purposes. This privacy policy outlines the information we might collect and how we will use that information.

Changes to Privacy Policy

Because of changes in internet technology and practices, this Privacy Policy, and our security and other policies may change from time to time. Please consult this portion of the Site for important changes to the Privacy Policy as they occur. By using the Site after we post any changes to this Privacy Policy, you agree to accept those changes, whether or not you have reviewed them, and such acceptance shall be deemed legally conclusive. If at any time you choose not to accept the terms of this Privacy Policy, you should not use the Site, nor should you provide information about yourself to the Company.

Personally Identifiable Information

When you access and use this Site, we or our service providers may obtain data concerning that access and use. This data may include, but is not limited to, your name, address and other demographic information, telephone number, and email address. We will not collect any personally identifiable information about you unless you provide it to us voluntarily. If you opt not to provide us with personally identifiable information, no material consequences will result, although there may be functionality on the Site that may be unavailable to you.

Use of Personally Identifiable Information

We may store and process your personally identifiable information in order to fulfill any requests for information that you make of us, provide you access to "members only" portions of the Site, or to better understand your needs and to learn how to improve our Site offerings. We may also use your personally identifiable information to contact you (for example, we may respond to your comments or requests for information). We will not sell or rent your personal information to any third party. The information you provide to NSI-MI Technologies will be kept confidential and used only to support your customer relationship with us. It will not be passed to third parties for their direct marketing purposes. NSI-MI Technologies may also use third party software, such as Google Analytics and Pingdom, to share aggregated customer information such as statistics about our customers, sales, traffic patterns and related site information with NSI-MI Technologies' business partners, but such aggregated information will not contain any personally identifying information of any users of the Site. The Company may disclose or access your account information when we believe in good faith that the law requires it.

Contacting Us Regarding Your Personally Identifiable Information

If you have submitted personally identifiable information through the Site, and you would like to review, request changes or have that information deleted from our databases, please contact us by sending a letter to NSI-MI Technologies, Attn: Marketing Department, 1125 Satellite Blvd., Suite 100, Suwanee, GA 30024-4629. We will then use reasonable efforts to change or remove your personally identifiable information from our files, unless we are entitled or required to retain it pursuant to other agreements or by law. We will use reasonable efforts to supply you with this information and correct any factual inaccuracies in this information. Notwithstanding the prior two sentences, if the laws in your state provide you with additional protections or requires us to comply with more stringent obligations to provide you with, remove, or correct your personally identifiable information, we will comply with those legal requirements.

Security

We use reasonable measures to protect personal information from access by unauthorized persons. This includes, among other things, standard techniques such as firewalls, encryption, intrusion detection, and site monitoring. We also use reasonable internal controls to protect personal information from misuse by our employees. Unfortunately, no electronic data or transmission can be guaranteed to be 100% secure. As a result, while we use reasonable measures to protect personal information, we cannot ensure or warrant the security of any information transmitted or otherwise provided to the Site or received from the Site. This is especially true for information that is transmitted via e-mail that is unprotected until it reaches our servers. Once a transmission is received, we use the reasonable measures set forth above to secure our servers. Internally, we restrict access to personally identifiable information to employees who need access to the information in order to perform their Company duties. These employees are limited in number and are instructed to adhere to our privacy policies.

Use of Cookies

When you visit this Site, you can browse the Site and access important information without revealing your identity. In order to improve our Site, we and our vendors may use "cookies" to track your visit. A cookie is a small amount of data that is transferred to your browser by a web server and can only be read by the server that gave it to you. It functions as your identification card and enables the Company to record your preferences (or passwords or purchases, if any). Most browsers are initially set to accept cookies. You can set your browser to notify you when you receive a cookie, giving you the chance to decide whether or not to accept it.

Other Sites

The Site may contain links to other websites. We are not responsible for the privacy practices employed by other websites. Users are encouraged to review the privacy policy of any website linked to or from the Site.

Transfer of Business Assets

As we continue to develop our business, we might acquire or buy other businesses or assets. In such transactions, customer information generally is one of the transferred business assets. Also, in the event that we or substantially all of our assets are acquired, both personally identifiable and non-personally identifiable user and customer information will be one of the transferred assets.
